

PARAMOUNT LIFE INSURANCE – Is it “Too Late” for Life Insurance?

Here is a life insurance question that you might want to consider...Is it too late for you to buy Life Insurance? This all depends on a few factors.

- Are you older than the maximum allowed age for life insurance?
- Are you healthy enough to qualify for life insurance?
- Are you able, if you qualify, to pay the premiums?

Usually, the maximum age that you can qualify for life insurance is age 85 and some will even issue up to age 90. Of course, the older you get the more apt you are to not be able to qualify from a health standpoint.

With every passing year, the premiums will go up and then you may run into the issue of being able to pay the premium. With that being said, it is very possible to get life insurance at whatever age you are at. Obviously, the sooner you get the coverage in place, the better the opportunities will be.
